Wherever known, is now acknowledged to be the best pump for all purposes yet patented. Manufactured at Bridgeport, Ohlo.

We are now prepared to fill orders, or put up these pumps on short notice, and guarantee en-tire satisfaction, and would call the attention of the public to the following advantages claimed for it:

3d The great enemy of the Pumps is from which in a single night often destroys and split the very best material and renders useless the hour of greatest need. This Pump Cannot Freezo
Because when the Pump is not in use the water
fails to its isvel in the chamber, which is always
placed below the freezing point.
4th. Preshness of water is always insured, as
the water comes directly from the bottom of the
well.

the Freehness of water is always insured, as the water coines directly from the bottom of the water coines and the water coines are considered and the conferration of the bottom of the water coines are coined and so arrange that while it is light, yet has great strength. The winder in which as I the work is performed is Incumined with cooper the copper lining presenter will do with a submerped, but placed in the well above to submerped, will work as well only a first from the will write the firm by a without a rival. The Pump may be firm by a your dwelling or barn, or within the bunding, and connected with the well, or spring or other body of water, fifty or one hundred yards distant, and will work with the sance-sea as though standing directly over the water.

9th, It is single acting and pumps only with the down stroke of the 1 andie, and thus avoids the heavy lift required in the double acting Pump.
